INTRODUCTION TO PARTS I AND II

BACKGROUND

Texas A&M Veterinary Medical Diagnostic Laboratory is a member of The Texas A&M University System, one of the largest systems of public higher education in the nation. Texas A&M Veterinary Medical Diagnostic Laboratory was established in 1969.

Texas A&M Veterinary Medical Diagnostic Laboratory is a federal government supply and service contractor subject to the affirmative action requirements of Executive Order 11246, the Rehabilitation Act of 1973 as amended, and the Vietnam Veterans’ Readjustment Assistance Act of 1974, Section 4212. Because Texas A&M Veterinary Medical Diagnostic Laboratory has $50,000 or more in annual contracts with the federal government and employs 50 or more employees, we are required to prepare annual written Affirmative Action Plans (AAP's) for minorities and women, for protected veterans, and for individuals with disabilities for our organization. Failure to comply with these laws and their implementing regulations, which are enforced by the Office of Federal Contract Compliance Programs (OFCCP), can result in debarment of the Texas A&M Veterinary Medical Diagnostic Laboratory from future contracts and subcontracts.

Affirmative action is a term that encompasses any measure adopted by an employer to correct or to compensate for past or present discrimination or to prevent discrimination from occurring in the future. Affirmative action goes beyond the simple termination of a discriminatory practice.

As stipulated in federal regulations, a prerequisite to the development of a satisfactory affirmative action plan is the evaluation of opportunities for protected group members, as well as an identification and analysis of problem areas inherent in their employment. Also, where a statistical analysis reveals a numeric disparity between incumbency and availability, an adequate AAP details specific affirmative action steps to guarantee equal employment opportunity. These steps are keyed to the problems and needs of protected group members. For minorities and women, such steps include the development of hiring and promotion goals to rectify the disparity between incumbency and availability. For protected veterans and individuals with disabilities, such steps will include a thorough review of the agency’s outreach efforts to determine the effectiveness of such efforts in closing the hiring and/or utilization gaps. It is toward this end that the following AAP of Texas A&M Veterinary Medical Diagnostic Laboratory was developed.

APPLICABLE AFFIRMATIVE ACTION LAWS AND REGULATIONS

Texas A&M Veterinary Medical Diagnostic Laboratory’s AAP for minorities and women (Part I) has been prepared according to Executive Order 11246, as amended, and Title 41, Code of Federal Regulations, Part 60-1 (Equal Employment Opportunity Duties of Government Contractors), Part 60-2 (Affirmative Action Programs of Government Non-Construction Contractors; also known as "Revised Order No. 4"), and Part 60-20 (Sex Discrimination Guidelines for Government Contractors).

The Jobs for Veterans Act (JFVA), Public Law 107-288, effective December 1, 2003, increased the threshold for coverage under 38 U.S.C. §4212 from $25,000 to $100,000; grants VEVRAA protection to those veterans who, while serving on active duty in the Armed Forces, participated in a United States military operation for which an Armed Forces service medal was awarded pursuant to Executive Order 12985 (62 Fed. Reg. 1209); changes the definition of “recently separated veteran” to include “any veteran during the three-year period beginning on the date of such veteran’s discharge or release from active duty”; changes “Special Disabled Veterans” to “Disabled Veterans,” expanding the coverage to conform to 38 U.S.C. § 4211 (3); and, following publication of the final regulations, requires contractors to post job listings with their local employment service delivery system.

**PROTECTED GROUPS**

Coverage under affirmative action laws and regulations applies to:

Women and minorities who are recognized as belonging to or identifying with the following race or ethnic groups: Blacks/African Americans, Hispanics/Latinos, Asians/Pacific Islanders, and American Indians/Alaskan Natives.

Any veteran who is entitled to compensation (or who but for the receipt of military retired pay would be entitled to compensation) under laws administered by the Secretary of Veterans Affairs, or who was discharged or released from active duty because of a service-connected disability.

Recently separated veterans: any veteran currently within three-years of discharge or release from active duty.

Veterans who served on active duty in the U.S. military during a war or campaign or expedition for which a campaign badge is awarded.

Veterans who, while serving on active duty in the Armed Forces, participated in a United States military operation for which an Armed Forces service medal was awarded pursuant to Executive Order 12985.

An individual with a disability: 1) a person who has a physical or mental impairment that
substantially limits one or more of his/her major life activities; (2) has a record of such impairment, or (3) is regarded as having such an impairment.

PROGRAM TERMINOLOGY

The terms, "comparison of incumbency to availability," "deficiency," and "problem area," appearing in this AAP, are terms Texas A&M Veterinary Medical Diagnostic Laboratory is required by government regulations to use. The criteria used in relation to these terms are those specified by the government. These terms have no independent legal or factual significance whatsoever. Although Texas A&M Veterinary Medical Diagnostic Laboratory will use the terms in total good faith in connection with its AAP, such use does not necessarily signify that it agrees that these terms are properly applied to any particular factual situation and is not an admission of non-compliance with EEO laws, regulations, and objectives.

The comparison of incumbency to availability contained herein is required by Government regulations to be based on certain statistical comparisons. Geographic areas and sources of statistics used herein for these comparisons were used in compliance with Government regulations, as interpreted by Government representatives. The use of certain geographic areas and sources of statistics does not indicate Texas A&M Veterinary Medical Diagnostic Laboratory's agreement that the geographic areas are appropriate in all instances of use or that the sources of statistics are the most relevant. The use of such geographic areas and statistics may have no significance outside the context of this AAP. Such statistics and geographic areas will be used, however, in total good faith with respect to this AAP.

The grouping of job titles into a given job group does not suggest that Texas A&M Veterinary Medical Diagnostic Laboratory believes the jobs so grouped are of comparable worth.

Whenever the term "goal" is used, it is expressly intended that it does "not provide the contractor with a justification to extend a preference to any individual, select an individual, or adversely affect an individual’s employment status, on the basis of that person’s race, color, religion, sex, or national origin" as stated in Title 41 Code of Federal Regulations, Part 60-2.16(e)(2).

This AAP is not intended to create any contractual or other rights in any person or entity.

RELIANCE ON EEOC’S GUIDELINES

Although Texas A&M Veterinary Medical Diagnostic Laboratory does not believe any violation of Title VII of the Civil Rights Act exists, it has developed this AAP in accordance with and in reliance upon the EEOC's Guidelines on Affirmative Action, Title 29 Code of Federal Regulations, Part 1608.

REPORTING PERIOD

This AAP is designed to cover the following reporting period,

- AAP implementation period: 1/1/2015 – 12/31/2015
- Transaction period: 1/1/2014 – 12/31/2014
STATEMENT OF PURPOSE FOR PARTS I AND II

This AAP has been designed to bring women and men, members of minority groups, protected veterans, and individuals with disabilities into all levels and segments of Texas A&M Veterinary Medical Diagnostic Laboratory’s workforce in proportion to their representation in the qualified relevant labor market.

The AAP, therefore, is a detailed, results-oriented set of procedures which, when carried out, results in full compliance with equal employment opportunity requirements through the equal treatment of all people.

The manner in which this is to be accomplished becomes technical and somewhat complicated. There are several reasons for this. First, Texas A&M Veterinary Medical Diagnostic Laboratory is subject to and must address a variety of State and Federal laws and guidelines dealing with equal employment opportunity and affirmative action. These guidelines and requirements are in themselves somewhat technical and complex. In addition, relevant court decisions, which are often useful in interpreting, but sometimes conflict with, these requirements and guidelines, must be taken into account when developing and implementing the AAP. Furthermore, in determining Texas A&M Veterinary Medical Diagnostic Laboratory’s current equal employment opportunity and affirmative action position and its desired future achievements, numbers, percentages, statistics, and numerous calculations and computations must come into play.

The technical, legal, and mathematical aspects of the AAP, however, all have one common purpose—to allow us to properly identify three key concepts:

1. Where we stand now,
2. Where we must go,
3. How best to get there.

These three concepts are the Affirmative Action Plan.
TEXAS A&M VETERINARY MEDICAL DIAGNOSTIC LABORATORY

PART I: AAP FOR MINORITIES AND WOMEN

CHAPTER 1: ORGANIZATIONAL PROFILE
41 C.F.R. § 60-2.11

Workforce Analysis/Lines of Progression

Texas A&M Veterinary Medical Diagnostic Laboratory conducted a workforce analysis to identify employees by sex and race/ethnicity in each job title. The data was collected from payroll records dated 12/31/2014.

Job titles are listed by organizational unit. Job titles are listed from lowest to highest paid. The list includes all job titles, including departmental supervision, exempt, and nonexempt titles.

For each job title, Texas A&M Veterinary Medical Diagnostic Laboratory identified the total number of employees, the number of male and female employees, the total number of minority employees, the male and female minority employees, the total number of employees who are White, Black, Hispanic, Asian, American Indian or Alaskan Native, Native Hawaiian or Pacific Islander, and Two or More races, and the male and female employees within each of these race/ethnic groups.

Lines of Progression

Developed in conjunction with the workforce analysis is information on Texas A&M Veterinary Medical Diagnostic Laboratory’s lines of progression. Lines of progression (career ladders/career paths) identify the job titles through which an employee can move to the top of a line. For each line of progression, applicable departments are identified. These are the departments which employ persons in the job titles in the specified line of progression. Some lines of progression are limited to only one department, while others are found throughout several departments.

The lines of progression provide useful information regarding patterns of vertical and horizontal movement throughout our workforce. These patterns will be evaluated to ascertain whether they provide to our employees the optimum career mobility and opportunities for advancement.

See the Workforce Analysis/Lines of Progression for the results per organizational unit.
CHAPTER 2: JOB GROUP ANALYSIS
41 C.F.R. § 60-2.12

Although the workforce analysis was conducted individually for every job title, after it was completed, job titles were grouped for the comparison of incumbency to availability and for setting goals. There were several reasons for grouping jobs.

Many job titles are so similar in content that handling them individually in the AAP is not necessary. Grouping together these very similar titles is appropriate for the comparison of incumbency to availability. For many job titles, the availability data that can be collected is limited, and the same data must be used for several related jobs. Therefore, grouping these related titles together is logical. Also, many job titles have so few incumbents in them that identifying disparities between incumbency and availability by job title is meaningless—as problem areas would be identified in terms of fractions of people. By grouping several similar titles and increasing the number of employees involved, a meaningful comparison can be conducted; any identified problem areas are more likely to be in terms of whole people. Consequently, goals established to correct problem areas are also more likely to be in terms of whole people.

The three reasons for grouping job titles all discuss "similar" or "related" jobs. That is the most critical guideline in creating job groups. Above all, the job titles placed into a job group must be more similar or related to each other than the job titles in other job groups.

Job groups must have enough incumbents to permit meaningful comparisons of incumbency to availability and goal setting. No minimum size has been established for this purpose, however, since it is dependent not only on the size of the job group, but also on the size of the availability percentage and the number of minorities or women already employed in the job group.

Texas A&M Veterinary Medical Diagnostic Laboratory did not combine job titles with different content, wages, or opportunities if doing so would have obscured problem areas (e.g., job groups which combine jobs in which minorities or women are concentrated with jobs in which they are underrepresented).
CHAPTER 3: PLACEMENT OF INCUMBENTS IN JOB GROUPS
41 C.F.R. § 60-2.13

Each job group appears on a Job Group Report with a job group name and number. The report lists each job title in the job group. For each job title, the worksheet provides the following information: EEO reporting category, job title, employee headcounts for each job title, and overall percentages by sex and race/ethnicity as of 12/31/2014.

See the Job Group Analysis for the listing of the job titles and the associated race and sex headcounts per job group.
"Availability" is an estimate of the proportion of each sex and race/ethnic group available and qualified for employment at Texas A&M Veterinary Medical Diagnostic Laboratory for a given job group in the relevant labor market during the life of the AAP. Availability indicates the approximate level at which each race/ethnic and sex group could reasonably be expected to be represented in a job group if Texas A&M Veterinary Medical Diagnostic Laboratory’s employment decisions are being made without regard to sex, race, or ethnic origin. Availability estimates, therefore, are a way of translating equal employment opportunity into concrete numerical terms. Correct comparisons of incumbency to availability, worthwhile and attainable goals, and real increases in employment for problem area groups depend on competent and accurate availability analyses. With valid availability data, we can compare the percentages of those who could reasonably be expected to be employed versus our current employment (from the workforce analysis), identify problem areas, and establish percentage goals to correct the problems.

Steps in Comparison of Incumbency to Availability

Identify Availability Factors

The following availability factors are required of federal government contractors for consideration when developing availability estimates for each job group:

1. External Factor: The external requisite skills data comes from the 2010 Census of Population.
   A. Local labor area: An “employee” Zip Code Analysis was used to identify the most precise local labor area for Texas A&M Veterinary Medical Diagnostic Laboratory. The final local labor area met the following two (2) conditions: 1) it includes all counties/county sets where 5% or more of the employees/applicants resided, and 2) when summed, those counties/county sets accounted for at least 78% of the total applicants/employees within the at-issue workforce. Smaller contributing counties/county sets are removed (i.e., trimmed) unless they are necessary to reach 78%. Once trimmed, the weights for the remaining counties/county sets were proportionately increased to reach 100%.
   B. Reasonable labor area: National

See the Zip Code Analysis report for the counties included in the local labor area.
Note: Zip code analysis results only apply to job groups where populated census data is available.

2. Internal Factor: The percentage of minorities or women among those promotable, transferable, and trainable within the contractor’s organization. See the Internal Availability Analysis for more detail.
Assign Internal and External Factor Weights: Weights were assigned to each factor for each job group. A combination of historical data and experience were used to determine the weights. Weights were never assigned in an effort to hide or reduce problem areas.

Identify Final Availability: Weights were multiplied by the component-specific data to produce weighted data for each component. Weighted data for each component was summed. This produced a final availability estimate for each sex and race/ethnic group, as well as for minorities in the aggregate.¹

See the *Availability Analysis* for the availability breakdown for each job group.

---

¹ In most cases, the final availability report (and most other technical reports in this AAP) only includes data/information for females and minorities in the aggregate.
CHAPTER 5: COMPARING INCUMBENCY TO AVAILABILITY

41 C.F.R. § 60-2.15

Once final availability estimates were made for each job group, Texas A&M Veterinary Medical Diagnostic Laboratory compared the percentage of incumbents in each job group to their corresponding availability. A comparison was made between the percentage employed as of 12/31/2014 and that group's final availability.

See the *Comparison of Incumbency to Availability* for the results per job group.
CHAPTER 6: PLACEMENT GOALS

41 C.F.R. § 60-2.16

Texas A&M Veterinary Medical Diagnostic Laboratory has established an annual percentage placement goal whenever it found that minority or female representation within a job group was less than would reasonably be expected given their availability. In each case, the goal was set at the availability figure derived for women and/or minorities, as appropriate for that job group. These goals take into account the availability of basically qualified persons in the relevant labor area. They also take into account anticipated employment opportunities with our organization. Goals are not rigid and inflexible quotas which must be met, but are instead targets reasonably attainable by means of applying every good faith effort to make all aspects of the entire AAP work. These goals will be reached primarily through recruiting and advertising to increase the pool of qualified minority and female applicants and through implementation of our action-oriented programs (see Chapter 9). Selections will occur only from among qualified applicants. Goals do not require the hiring of a person when there are no vacancies or the hiring of a person who is less likely to do well on the job ("less qualified") over a person more likely to do well on the job ("better qualified"), under valid selection procedures. Goals do not require that Texas A&M Veterinary Medical Diagnostic Laboratory hire a specified number of minorities or women.

A goal is a guidepost against which Texas A&M Veterinary Medical Diagnostic Laboratory, a community group, or a compliance agency can measure progress in remedying identified underutilization in Texas A&M Veterinary Medical Diagnostic Laboratory’s workforce. By setting realistic goals, Texas A&M Veterinary Medical Diagnostic Laboratory should be able to meet the goals, assuming we conduct effective recruitment and advertising efforts to ensure an adequate pool of qualified minority and/or female applicants.

See the Placement Goals report for each job group and the Goals Progress Report for progress made since the previous AAP.
CHAPTER 7: DESIGNATION OF RESPONSIBILITY
41 C.F.R. § 60-2.17(a)

As part of its efforts to ensure equal employment opportunity to all individuals, Texas A&M Veterinary Medical Diagnostic Laboratory has designated specific responsibilities to various staff to ensure the AAP focuses on all components of the employment system. To that end, the Director is assisted in this effort by AgriLife’s Chief Human Resources Officer in carrying out the responsibilities described below.

A. Duties of the Chief Human Resources Officer

1. Coordinates the development of policy statements, affirmative action programs, and both internal and external communication programs.

2. Monitors the consistency and completeness of Texas A&M Veterinary Medical Diagnostic Laboratory Affirmative Action Program with federal, state, and local agencies' rules and regulations.

3. Serves as a liaison between Texas A&M Veterinary Medical Diagnostic Laboratory and The Texas A&M University System’s Office of Equal Opportunity and Diversity, minority and women's organizations, and other community groups serving women and minorities and the citizens of the State of Texas.

4. Disseminates current legal information affecting affirmative action to appropriate personnel.

5. Assists hiring supervisors in collecting and analyzing employment data and identifying problem areas.

6. Ensures the maintenance of records regarding recruitment, employment, and retention of women and minorities as well as ensuring that Texas A&M Veterinary Medical Diagnostic Laboratory maintains required applicant flow data.

7. Periodically reviews Texas A&M Veterinary Medical Diagnostic Laboratory’ personnel policies and practices in an effort to identify possible problem areas and to develop and suggest solutions for hiring supervisors.

8. Investigates charges of discrimination filed by Texas A&M Veterinary Medical Diagnostic Laboratory’ employees or applicants for employment with Texas A&M Veterinary Medical Diagnostic Laboratory.

9. Ensures the equal opportunity and affirmative action policy is posted internally.
B. Duties of Unit Heads, Managers and Supervisors

The Unit Heads, Managers, and Supervisors have the responsibility of applying the principle of equality in all personnel actions. Their duties include:

1. Applying the principles of equal employment opportunity in all terms and conditions of employment.

2. Reviewing the qualifications of all employees to ensure minorities and women are given full opportunity for transfers and promotions.

3. Taking action to prevent harassment of employees due to race, color, religion, sex, national origin, age, disability, or veteran status.

4. Properly displaying posters and notices.

5. Ensuring that minority and female employees are afforded full employment opportunities and are encouraged to participate in all agency-sponsored educational and training activities.

6. Ensuring that their department or division fully complies with the spirit and policies of the affirmative action program.

7. Ensuring that no one in their department or division harasses employees, retaliates against employees for using the complaint and appeal procedures, or retaliates against employees for filing a complaint with a federal, state, or local compliance agency.

8. Is accountable to senior management for personal support of Texas A&M Veterinary Medical Diagnostic Laboratory’s equal opportunity and affirmative action policies.
CHAPTER 8: IDENTIFICATION OF PROBLEM AREAS
41 C.F.R. § 60-2.17(b)

Terminology

The phrases “comparison of incumbency to availability,” and “problem area” appearing in this chapter are terms Texas A&M Veterinary Medical Diagnostic Laboratory is required by government regulations to use. The criteria used in relation to these terms are those specified by the government. These terms have no independent legal or factual significance. Although Texas A&M Veterinary Medical Diagnostic Laboratory will use the terms in good faith in connection with its AAP, such use does not necessarily signify the company agrees that these terms are properly applied to any particular factual situation and is not an admission of non-compliance with EEO laws, regulations, and objectives. Whenever the term “goal” is used, it is expressly intended that it “should not be used to discriminate against any applicant or employee because of race, color, religion, gender, or national origin,” as stated in Title 41 Code of Federal Regulations, Part 60-2.16(e).

In addition to comparing incumbency to availability within job groups, Texas A&M Veterinary Medical Diagnostic Laboratory has conducted studies to identify problem areas in each of its selection procedures (i.e., hires, promotions, and terminations). Texas A&M Veterinary Medical Diagnostic Laboratory will continue to monitor and update these studies during each AAP year. In each case where potential problem areas have been identified, affirmative actions, as appropriate, will be taken consistent with any of the action-oriented programs described in Chapter 9 of this AAP.

Goals are established within each of the job groups at no less than the current availability data for the job group.

41 C.F.R. § 60-2.17(b)(1): Workforce by Organizational Unit and Job Group

An analysis of minority and female distribution within each organizational unit was accomplished by a thorough review of the Workforce Analysis.

An analysis of minority and female utilization within each job group was accomplished by a thorough review of the Comparison of Incumbency to Availability reports.

41 C.F.R. § 60-2.17(b)(2): Personnel Activity

Applicant flow, hires, promotions, and terminations were analyzed by job group. An analysis of selection disparities in personnel activity between men/women and whites/minorities was accomplished by a thorough examination of transaction data. See the Summary of Personnel Transactions Report for each job group.
41 C.F.R. § 60-2.17(b)(3): Compensation Systems

Compensation analyses were conducted by comparing the salaries for men v. women, and whites v. minorities in each job title.
Texas A&M Veterinary Medical Diagnostic Laboratory tailors our action-oriented programs each year to ensure they are specific to the problem(s) identified.

**Action-Oriented Program:**

The Action-Oriented Programs designed to address the underutilization of women and minorities are listed below. These Action-Oriented Programs will be implemented throughout the AAP year. The Chief Human Resources Officer, with the help of the managers, will be responsible in ensuring that the following are implemented.

**Recruitment:**

1. Texas A&M Veterinary Medical Diagnostic Laboratory will continue to place advertisements on job opportunities through local job service offices.

2. Texas A&M Veterinary Medical Diagnostic Laboratory will also continue to place job opportunity announcements on its website and in local, regional, and/or national newspapers when appropriate.

3. Texas A&M Veterinary Medical Diagnostic Laboratory will continue to place an ad in various media outlets based on the appropriateness. Ads for professional positions are placed in relevant professional job-related magazines and websites. Service jobs are placed in the local newspaper.

4. Advertisements and newsletters will always carry the Equal Employment Opportunity clause.

5. Minority and female applicants will be considered for all positions for which they are qualified.

6. Texas A&M Veterinary Medical Diagnostic Laboratory will continue to advertise and recruit professionals during annual conferences, trade shows and other educational forums hosted for veterinary diagnosticians and related industries.

7. Texas A&M Veterinary Medical Diagnostic Laboratory will continue to recruit and solicit applications via direct email and mail to fellow veterinary diagnostic laboratories, veterinary science programs at several colleges and universities and related industries.

8. The Texas A&M Veterinary Medical Diagnostic Laboratory targets universities based in part on the high-level of diversity of its student body.
9. The Texas A&M Veterinary Medical Diagnostic Laboratory will continue to employ work-study students during the summer and part-time during the school year.

10. Texas A&M Veterinary Medical Diagnostic Laboratory will continue to publish recruiting brochures where minority and female members of the workforce are included, as well as in other company literature.

**Job Specifications/Selection Process:**

1. Develop position descriptions that accurately reflect position functions, and are consistent for the same position from one location to another.

2. Develop job or worker specifications that contain academic, experience, and skill requirements that do not constitute inadvertent discrimination. Develop specifications that are free from bias with regard to sex, age, race, color, religion, national origin, disability or veteran status.

3. Approved position specifications and worker specifications will be made available to all members of management involved in the recruiting, screening, selection, and promotion process. Copies may also be made available to recruiting sources.

4. Texas A&M Veterinary Medical Diagnostic Laboratory will continue to use only worker specifications that include job-related criteria.

5. Texas A&M Veterinary Medical Diagnostic Laboratory will continue to carefully select and counsel all personnel involved in the recruiting, screening, selection, promotion, disciplinary, and related processes to eliminate bias in all personnel actions.

**Job Advancement:**

1. Minority and female employees can be made available for participation in Career Days, Youth Motivation Programs, and related activities in the community, as desired.

2. Texas A&M Veterinary Medical Diagnostic Laboratory will continue to post or announce job opportunities internally.

3. Establish, whenever feasible, formal career counseling programs to include professional development, education, aid, job rotation, mentoring, and similar programs.

4. All employees are actively encouraged to participate in Texas A&M Veterinary Medical Diagnostic Laboratory-sponsored social and recreational activities.

5. Texas A&M Veterinary Medical Diagnostic Laboratory will continue to use its formal employee evaluation program. The performance appraisal is used for annual reviews for all employees.
6. Employees can choose training courses through the TrainTraq and include them in their career development plan.
Chapter 10: Internal Audit and Reporting

41 C.F.R. § 60-2.17(d)

Pursuant to §60-2.17(d), Texas A&M Veterinary Medical Diagnostic Laboratory has conducted studies to identify problem areas in each of the selection procedures (i.e., hires, promotions, and terminations) within the job groups. A&M System Office will continue to monitor and update these studies during each AAP year. In each case where potential problem areas have been identified, affirmative actions, as appropriate, will be taken consistent with the action-oriented programs described in Chapter 9 of this AAP. The reporting and monitoring system provides for:

- **Analysis of Annual Placement Goal Attainment:** Texas A&M Veterinary Medical Diagnostic Laboratory compares the race/ethnicity and sex composition of individuals moving into a job group with applicable Annual Placement Goals for that job group.

- **Analysis of Applicant Flow and New Hires: Pursuant** to §60-2.17(b)(2), Texas A&M Veterinary Medical Diagnostic Laboratory performs a statistical comparison of the race/ethnicity and sex composition of applicants and new hires by job group.

- **Analysis of Terminations:** Pursuant to §60-2.17(b)(2), Texas A&M Veterinary Medical Diagnostic Laboratory performs a statistical comparison of the race/ethnicity and sex composition of terminated employees by job groups. Involuntary terminations were compared to those available to be terminated.

- **Analysis of Promotions:** Pursuant to §60-2.17(b)(2), Texas A&M Veterinary Medical Diagnostic Laboratory performs a statistical comparison of promotions by race/ethnicity and sex by comparing promotions into each job group to the internal availability data for that job group.

- **Analysis of Compensation:** Pursuant to §60-2.17(b)(3), Texas A&M Veterinary Medical Diagnostic Laboratory performs a compensation analyses by comparing the mean salaries for men v. women and whites v. minorities in each job group. Mean tenure within the organization is also considered as a moderating factor.

CHAPTER A: POLICY STATEMENT
41 C.F.R. §§ 60-300.44(a); 60-741.44(a)

It is the policy of Texas A&M Veterinary Medical Diagnostic Laboratory and my personal commitment that equal employment opportunity be provided in the recruitment, hiring, training, and promotion of all persons regardless of race, religion, color, national origin, sex, age, status as a protected veteran or individual with a disability including the executive level. The policy is fully supported by Texas A&M Veterinary Medical Diagnostic Laboratory’s Director. Texas A&M Veterinary Medical Diagnostic Laboratory does not and will not discriminate against any applicant or employee regardless of race, religion, color, national origin, sex, age, status as a protected veteran and/or individual with a disability for any position for which the applicant or employee is qualified. In addition, Texas A&M Veterinary Medical Diagnostic Laboratory is committed to taking affirmative action to employ and advance in employment qualified protected veteran employees. Such affirmative action will apply to all personnel actions, including, but not limited to, hiring, upgrading, demotion or transfer, recruitment, recruitment advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship and on-the-job training. All employment decisions are based on valid job requirements. Texas A&M Veterinary Medical Diagnostic Laboratory will make every effort to provide reasonable accommodations for any physical and mental limitations of individuals with disabilities and disabled veterans.

Employees and applicants will not be subjected to harassment, intimidation, threats, coercion, or discrimination because they have engaged in or may engage in filing a complaint; assisting or participating in an investigation, compliance evaluation, hearing, or other activity related to the administration of federal, state, or local law requiring equal opportunity for individuals with disabilities; opposing any act or practice made unlawful by any federal, state, or local law requiring equal opportunity for individuals with disabilities, or exercising any other right protected by Section 503 of the Rehabilitation Act or its implementing regulations.

I reaffirm this commitment to equal opportunity, access, and affirmative action in an annual communication to all employees, which is also posted on Texas A&M Veterinary Medical Diagnostic Laboratory’s website. I have delegated day to day implementation of the affirmative action program to AgriLife’s Chief Human Resources Officer. An audit and reporting system is in place for implementation of the affirmative action program.

Our obligations in this area stem from not only adherence to various state and federal regulations, but also from our commitment as an employer in this community to provide job opportunities to all persons regardless of race, religion, color, national origin, sex, age, status as a protected veteran or an individual with disability.

If you have any questions regarding our equal employment opportunity or harassment policies or complaint procedures, you may contact the Chief Human Resources Officer at 979-845-2423. The Affirmative Action Plan may be reviewed, by making an appointment with the Chief Human Resources Officer.
(Signature)

Bruce Akey
Director, Texas A&M Veterinary Medical Diagnostic Laboratory

1/1/2015
CHAPTER B: REVIEW OF PERSONNEL PROCESSES
41 C.F.R. §§ 60-300.44(b); 60-741.44(b)

To ensure that all personnel processes are conducted in a job-related manner which provides and promotes equal employment opportunity for all known protected veterans and employees and applicants with disabilities, reviews are periodically made of the Texas A&M Veterinary Medical Diagnostic Laboratory’s selection methods.

1) Texas A&M Veterinary Medical Diagnostic Laboratory periodically conducts a review of its selection procedures to ensure careful, thorough, and systematic consideration of the qualifications of 1) known protected veteran applicants and employees; and 2) applicants and employees with disabilities.

2) Selection procedures will not stereotype individuals with disabilities or protected veterans.

3) Texas A&M Veterinary Medical Diagnostic Laboratory ensures that applicants and employees with disabilities have equal access to its personnel processes, including those implemented through information and communication technologies.

4) Texas A&M Veterinary Medical Diagnostic Laboratory provides reasonable accommodations for applicants and employees with disabilities, unless such accommodations will cause undue hardship, to ensure that equal employment opportunity is extended in the operation of its personnel processes.

5) Texas A&M Veterinary Medical Diagnostic Laboratory ensures that its information and communications systems are accessible to all employees and applicants with disabilities, even in the absence of a specific request for accommodation.
CHAPTER C: PHYSICAL AND MENTAL QUALIFICATIONS
41 C.F.R. §§ 60-300.44(c); 60-741.44(c)

To ensure that all physical and mental qualifications and requirements are job-related, reviews are periodically made of these qualifications and requirements as they relate to employment, training, promotion, and demotion.

The physical and mental job requirements are reviewed to determine whether or not they are job-related and consistent with business necessity and safe performance on the job. This review is done as position descriptions are created or updated.

Schedule for Review: Any previously reviewed classification will be reviewed again if there is a change in working conditions that affects the job's physical or mental requirements (e.g., new requirements, new equipment, etc.)

The burden of proof to demonstrate the necessity of any qualification requirement which may disqualify a protected veteran or an individual with a disability rests with the Texas A&M Veterinary Medical Diagnostic Laboratory.

Military records will not be used by the Texas A&M Veterinary Medical Diagnostic Laboratory to discriminate against any protected veteran.
CHAPTER D: REASONABLE ACCOMMODATION TO PHYSICAL AND MENTAL LIMITATIONS

41 C.F.R §§ 60-300.44(d); 60-741.44(d)

Texas A&M Veterinary Medical Diagnostic Laboratory will make reasonable accommodations to known physical and mental limitations of otherwise qualified individuals with disabilities or who are disabled veterans unless it can demonstrate that such accommodations would impose an undue hardship on the operation of business. If an individual with a disability or disabled veteran is having significant difficulty performing his or her job and it is reasonable to conclude that the performance problem may be related to the known disability, The Texas A&M Veterinary Medical Diagnostic Laboratory will confidentially notify the employee of the performance problem and inquire whether the problem is related to the employee’s disability. If the employee responds affirmatively, the Texas A&M Veterinary Medical Diagnostic Laboratory will confidentially inquire whether the employee is in need of a reasonable accommodation.

Employees may also contact the following at any time to formally request an accommodation:

Name: Jennifer Humphries
Title: Chief Human Resources Officer
Phone: 979-845-2423
Email: jmhumphries@ag.tamu.edu
CHAPTER E: HARASSMENT
41 C.F.R. §§ 60-300.44(e); 60-741.44(e)

Texas A&M Veterinary Medical Diagnostic Laboratory has developed and implemented a set of procedures to ensure that its employees with disabilities and protected veterans are not harassed because of disability or veteran status. All new employees are required to complete online discrimination training as part of the process of being entered onto payroll and every two years thereafter.
Texas A&M Veterinary Medical Diagnostic Laboratory will undertake appropriate outreach and positive recruitment activities that are reasonably designed to effectively recruit qualified individuals with disabilities and protected veterans.

1) Texas A&M Veterinary Medical Diagnostic Laboratory’s statement on equal opportunity and affirmative action is communicated to all prospective employees through its inclusion on job postings and the official application for employment.

2) All Texas A&M Veterinary Medical Diagnostic Laboratory’s job openings will continue to be listed with the Texas Workforce Commission to ensure that all prospective applicants are aware of openings. Only positions that will be filled by internal candidates are exempt from posting requirements.

3) On-site tours and meetings are available as an outreach to interested individuals, veteran’s organizations and representatives, and rehabilitation agencies to familiarize their advisers and job coaches of physical features of the workplace and related job requirements.

4) Additional outreach efforts will be made as needed to meet the benchmarks established for hiring protected veterans and the utilization goals for individuals with disabilities.
CHAPTER G: INTERNAL DISSEMINATION OF POLICY

41 C.F.R. §§ 60-300.44(g); 60-741.44(g)

In order to gain positive support and understanding for the affirmative action program for protected veterans and individuals with disabilities, Texas A&M Veterinary Medical Diagnostic Laboratory will implement or continue to implement the following internal dissemination procedures. The following procedures are designed to foster support and understanding from our executive staff, management, supervisors, and other employees in an effort to encourage all employees to take the necessary actions to aid us in meeting our obligations.

1) Texas A&M Veterinary Medical Diagnostic Laboratory’s Director distributes written communication of reaffirmation of commitment to affirmative action annually to all employees. This memorandum is also available on Texas A&M Veterinary Medical Diagnostic Laboratory’s website.

2) A&M System Policy 08.01 and Regulation 08.01.01 set forth the system’s commitment to affirmative action compliance.

3) The Affirmative Action plan is available on Texas A&M Veterinary Medical Diagnostic Laboratory’s website.

4) State and federal EEO posters are placed at all Texas A&M Veterinary Medical Diagnostic Laboratory’s locations.
CHAPTER H: AUDIT AND REPORTING SYSTEM
41 C.F.R. §§ 60-300.44(h); 60-741.44(h)

Texas A&M Veterinary Medical Diagnostic Laboratory has developed and currently implements an audit and reporting system that addresses the following:

1) Measures the effectiveness of the affirmative action program.

2) Indicates the need for remedial action.

3) Determines the degree to which our affirmative action objectives have been attained.

4) Determines whether protected veterans have had the opportunity to participate in all Texas A&M Veterinary Medical Diagnostic Laboratory-sponsored educational, training, recreational, and social activities.

5) Measures compliance with the affirmative action program’s specific obligations.
CHAPTER I: RESPONSIBILITY FOR IMPLEMENTATION
41 C.F.R. §§ 60-300.44(i); 60-741.44(i)

1. The Director has ultimate responsibility for the success of the affirmative action program. The Director has delegated specific authority and responsibility for affirmative action to the Chief Human Resources Officer.

2. Managers and supervisors share in the responsibility for implementation.
   a. Individual departments share the administrative responsibilities of day-to-day implementation of the program.
   b. All positions for which external candidates are considered are posted and advertised.
CHAPTER J: TRAINING
41 C.F.R. §§ 60-300.44(j); 60-741.44(j)

Texas A&M Veterinary Medical Diagnostic Laboratory trains employees involved in the recruitment, screening, selection, promotion, discipline, training, and related personnel processes to ensure commitment and application of Texas A&M Veterinary Medical Diagnostic Laboratory’s affirmative action program are implemented.
CHAPTER K: COMPENSATION
41 C.F.R. §§ 60-300.21(i); 60-741.21(i)

It is the policy of Texas A&M Veterinary Medical Diagnostic Laboratory that when offering employment or promotion to protected veterans or individuals with disabilities, the amount of compensation offered will not be reduced because of any income based upon a disability-related and/or military service-related pension or other benefit the applicant or employee receives from another source.
