Test Cancellation Policy

Test cancellations may be requested via telephone or in writing from the submitting client during regular business hours, Monday – Friday, 8 am – 5 pm. Requests received after these hours will be considered the next business day. Depending on the circumstances, if sample processing or testing has commenced when the request is received, full cancellation may not be possible and some charges may remain.

Local Referral Policy

TVMDL works with the Gastrointestinal Laboratory (GI Lab) at Texas A&M University as a referral laboratory. Samples received at TVMDL for GI Lab tests are repackaged and transported to the GI Lab for testing.

Starting September 1, samples shipped to TVMDL intended for the GI Lab will incur a referral/forwarding fee. For faster turnaround times and to avoid TVMDL's \$7 accession and \$10 local referral/forwarding fee, samples for GI specific tests should be shipped directly to the GI Lab at the address below. For more information on GI Lab offerings, visit their website at vetmed.tamu.edu/gilab.
