

Careers at TVMDL

VETERINARY DIAGNOSTICS

TVMDL is a full-service veterinary diagnostic laboratory. Tests performed help determine the cause of a disease or develop a treatment plan for companion animals, livestock, poultry and livestock. Veterinarians on staff bring their clinical experience together with their diagnostic knowledge to provide a customized service to clients.

- Consult and advise clients on test selection
- Interpret test results and recommend treatment or further testing
- Coordinate cases with multiple tests to ensure a comprehensive report for clients
- Train fellow diagnosticians and veterinarians

SCIENCE & TECHNOLOGY

At TVMDL, you'll perform state of the art diagnostic techniques alongside classical diagnostic methods. We routinely perform:

- Testing for toxins or illicit substances using liquid chromatography-mass spectrometry
- rtPCR testing for DNA or RNA analysis
- Classic bacteriology and fungal cultures
- ELISA testing for antibody presence
- Quick turnaround tests for animals in critical status
- Endocrine testing for pregnancy or breeding purposes
- Review of biopsy and cytology samples to identify cancers or other diseases

QUALITY ASSURANCE

Our sound reputation can be largely accredited to our continuous attention to quality assurance, which we safeguard by applying the most stringent requirements and applicable standards. Quality assurance professionals:

- Aid in drafting, reviewing, and editing standard operating procedures
- Manage proficiency programs, equipment calibration, and process deviations
- Determine root cause analysis and steps for improvement in lab processes
- Perform reviews, trainings and evaluations with laboratory professionals

INFORMATION TECHNOLOGY

TVMDL has made significant investments in automation, process workflow, technology implementation, and in-house software development to ensure we can continue to provide timely and affordable testing services. Our in-house IT team works in:

- Software development
- Desktop and instrumentation support
- Database management
- Systems and business analysis and automation

ADMINISTRATIVE

Providing excellent client service to our 150,000+ clients is paramount. Administrative staff:

- Manage client's case records
- Review and assign specimens for testing
- Track export testing or legal cases
- Collaborate with TVMDL veterinarians and scientists to fulfill test requests
- Provide customer service to clients, animal owners, and veterinarians

ABOUT TVMDL

TVMDL is a member of the Texas A&M University System and is composed of two full-service laboratories, located in College Station and Canyon, and two poultry laboratories, located in Center and Gonzales. With its strategic locations, TVMDL is uniquely positioned to serve the animal industries of Texas. TVMDL performs an average of 925,000 tests annually from clients in Texas, neighboring states, and around the world. TVMDL works each day to protect the health of livestock, poultry, companion animals, exotics and zoo animals, equine and greyhound racing animals, and wildlife.
